-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 19, 20, 23, 24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yoshiki (JP 2002-184932) in view of Gilmore et al.

Yoshiki discloses an electronic component (1) including first and second electrodes (1a), a board (2) including third and fourth electrodes (2a), first and second solders (9), insulating sealing part (4), but does not disclose the sealing part made of resin, and a metal film (re claims 19, 24).

Re claims 20, see Fig 4.

Re claim 23, Fifth electrode, see Fig 2.

Gilmore et al disclose a sealing part made of resin, and a metal film (col. 2, lines 12-15). It would have been obvious to one of ordinary skill in the art at the time the invention was made to used resin for the sealing part of Yoshiki and to include the metal film with the package of Yoshiki for the purpose of shielding RFI

Art Unit: 2831

Claims 1-18 are allowed

Claims 21, 22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is an examiner's statement of reasons for allowance:

The limitation "solder resists" in combination with other limitations present is neither taught nor disclosed in the prior art of record.

Response to Arguments

Applicant's arguments filed 06-16-05 have been fully considered but they are not persuasive.

Applicant argues (1) that the distance between the electrodes on substrate 2 is greater than the distance between the electrodes on capacitor 1. With respect to (1), the distance between the electrodes on substrate 2 is equal to the distance between the electrodes on capacitor (see Fig 2, 4).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 2831

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
